\$5 Sport Bet BONUS + 50 free Spins

The guide consists of **5 easy steps**.

- Step 1: Set up phantom Wallet
- Step 2: Add Solana to your Wallet
- Step 3: Launch TG Casino
- Step 4: Sending funds to an address
- Step 5: Let's gamble!

Note: This guide is for beginners – if you already know something about crypto, feel free to skip this part.

A

Step 1: Set up Phantom Wallet

Setting up a Phantom wallet is quite simple but can be confusing if you're new to the crypto world.

What is Phantom?

Phantom is a cryptocurrency wallet. It's an easy-to-use, secure wallet that allows you to send and receive Solana, interact with Solana-based apps, and store other cryptocurrencies.

→ **Solana** is a fast and cheap blockchain that allows people to send and receive digital money without high fees or long wait times.

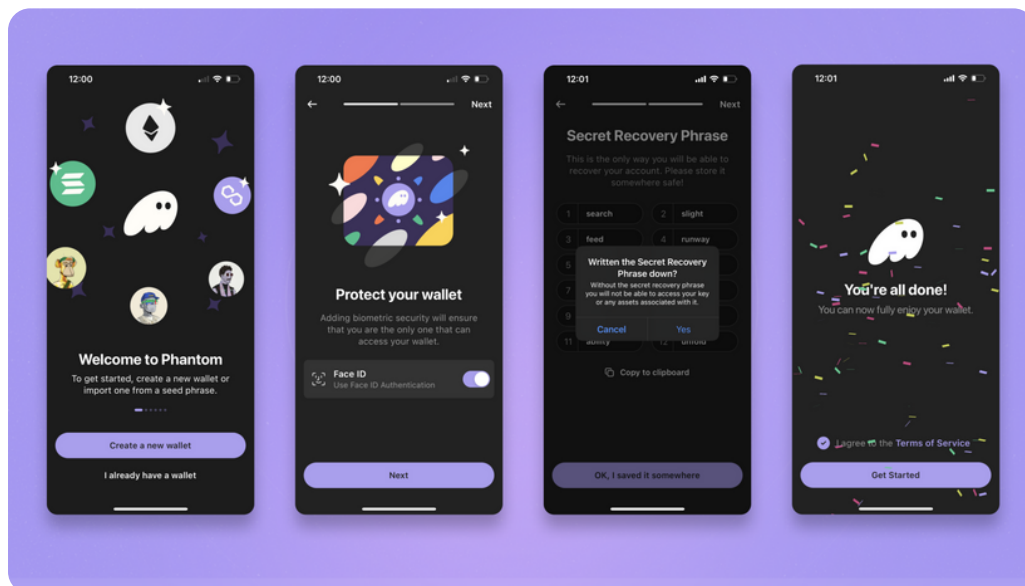

Download Phantom from your App Store

Search for Phantom and download it to your device. You can also download it directly from your browser if you're using a PC.

Create a New Wallet

Choose "Create New Wallet" if you don't have one already. Phantom will walk you through the steps to set up your wallet.

Backup Your Recovery Phrase

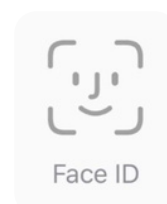

Phantom will give you a 12-word recovery phrase. This is like your wallet's secret password, **do not share it with anyone.**

Write it down on paper and store it somewhere safe (preferably offline). If you ever lose access to your wallet (e.g., due to a lost computer or browser reset), you'll need this phrase to recover your wallet.

Set a Wallet Password

You'll be required to enter this password every time you want to access your wallet. This password does not replace your recovery phrase.

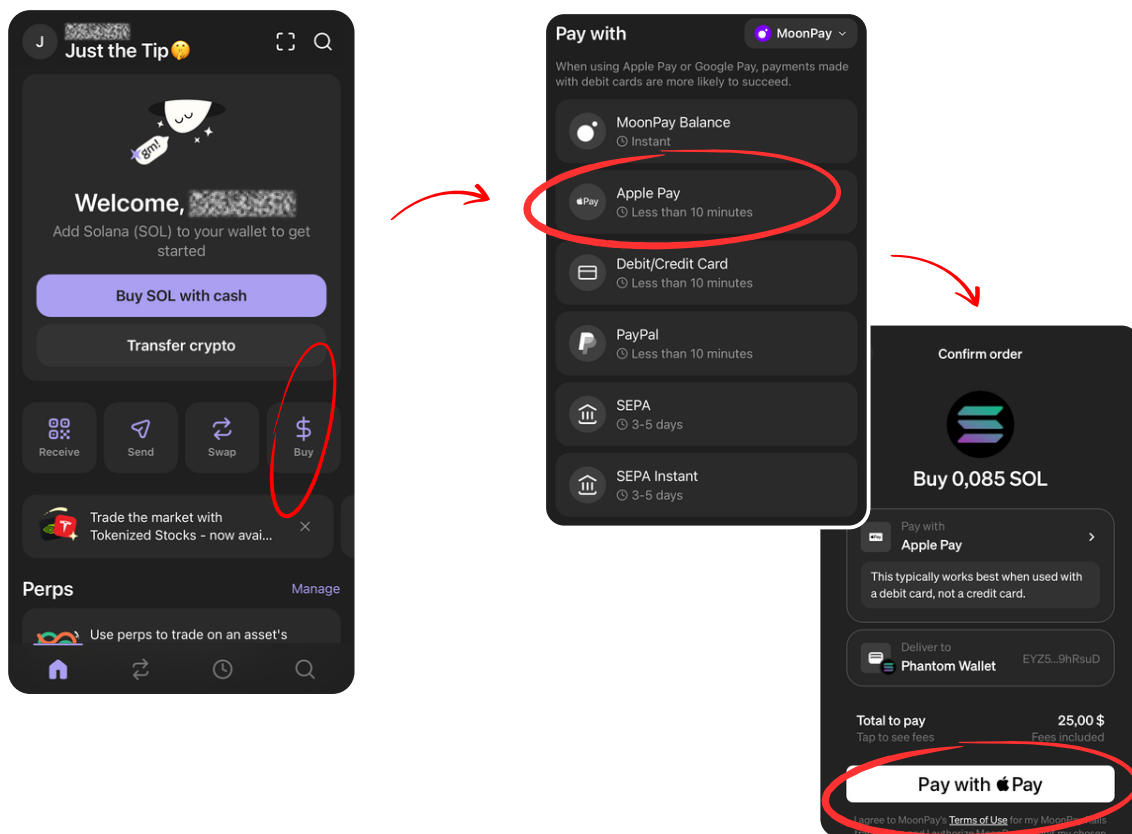

Step 2: Add Solana to your Wallet

For buying Solana, we suggest using the Buy option in the Phantom app (via Moonpay).

Exchange Platforms: There are other exchange options (like Binance, Coinbase, etc.) with lower fees, but for simplicity, we won't explain those here.

Follow the steps in the images below – we suggest using Apple Pay, where you don't need to disclose personal information.

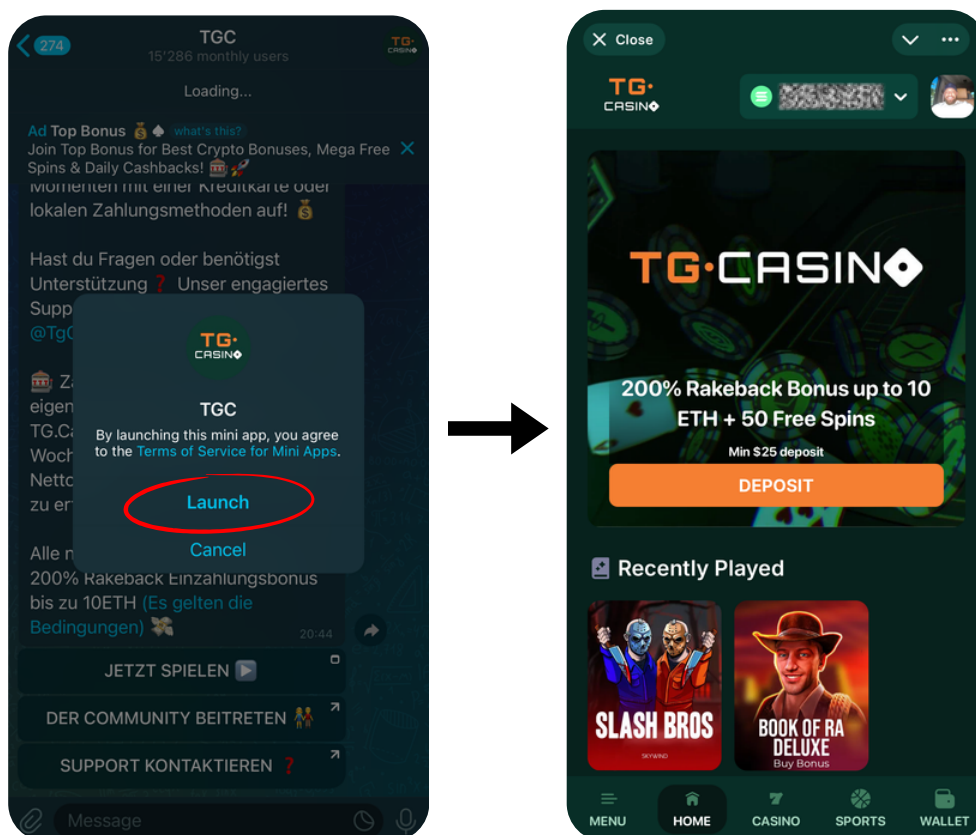

Now you have Solana in your wallet and are ready to deposit.

Wallet address: Your wallet address (a long string of letters and numbers) is visible at the top. This is your unique address for receiving cryptocurrencies.

Step 3: Launch TG Casino

The link will take you to a chat in Telegram where you can launch the casino.

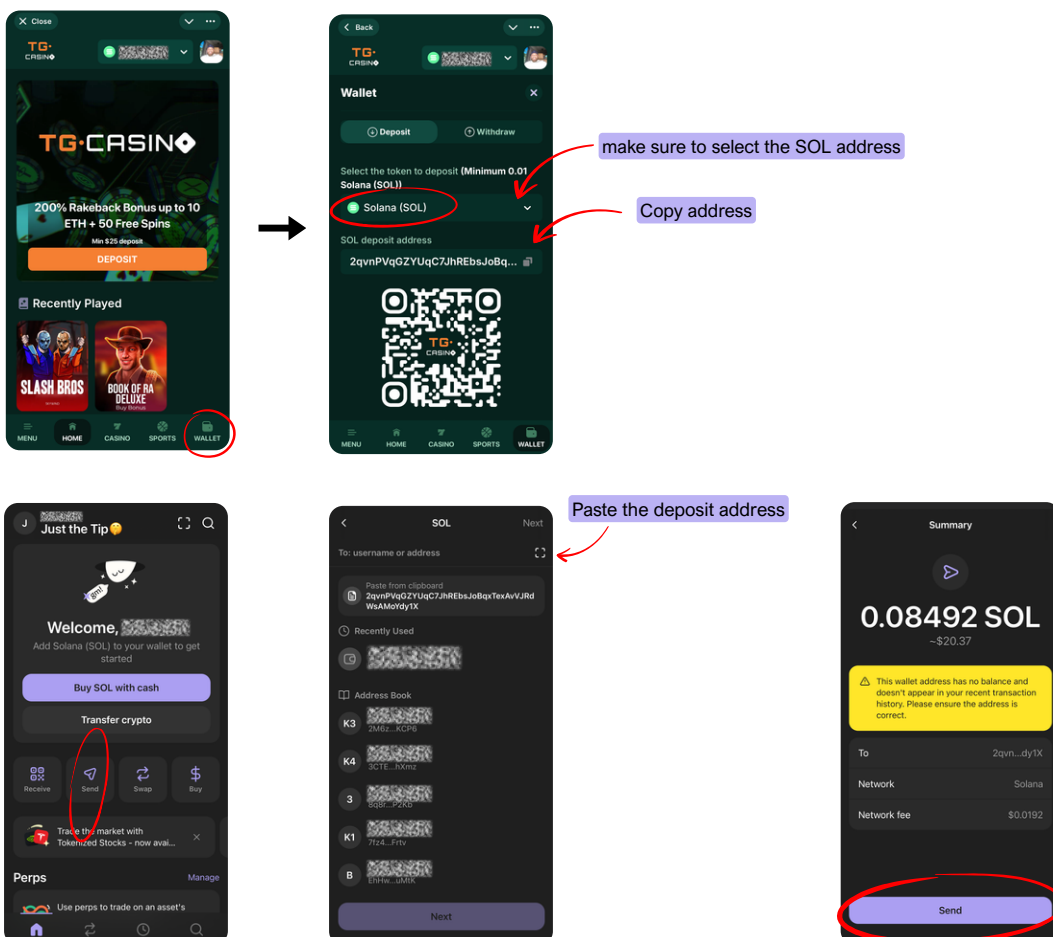

Step 4: Sending funds to an address

To play at the TG Casino, you'll need to send funds to the deposit address of the casino.

Follow these steps:

1. Launch TG Casino (using the link above or in our group)
2. Go to "Wallet"
3. Select Solana as the token to deposit (!!)
4. Copy the address
5. Send your SOL to the copied address.

You'll see the funds in your wallet in the TG Casino. This may take a couple of minutes.
